PROFESSIONAL EXPERIENCE

TOP GLOVE SDN BHD
FACTORY 23
ENGINEER, PRODUCTION
(Since November 2020)

1. Reduced customer complaint from 39 (2019) to 13 (2022).
2. Controlled production line uptime (93.0%).
3. Scrap reduction from 2.29% (Nov 20) to 0.90% (Apr 23).

1. Carrying out improvement engineering projects.
2. PLC and HMI hands-on experience.
3. Production Line OQ, PQ.
4. ISO 9001, 13485, 14001 audit.
5. Preparation of CAPAR, 8D.
6. 5S, Kaizen, Fishbone.

EDUCATION BACKGROUND

UNIVERSITI SAINS MALAYSIA
Bachelor of Chemical
Engineering with Honours
CGPA: 3.53

FYP: Adsorption of Heavy Metal
Ion using Activated Carbon

Plant Design Analysis and
Operation: Production of Methyl
Tert-Butyl Ether (MTBE)

ST. MICHAEL'S INSTITUTION
IPOH, PERAK

About Me

A perfectionist who is hungry for knowledges & skills, proactively seek to understand and resolve unknowns, committed for contribution in problem-solving.

My Motto

1. Always refer to manuals
2. Resolve problems first
3. Learning is lifetime journey

KNOWLEDGE & SKILLS

ENGINEERING

1. Keyence KV Studio
2. Siemens TIA Portal
3. Delta DOPSoft
4. Adobe AutoCAD

DESK-WORK

1. Microsoft Office (Word, Excel, PowerPoint)
2. Google Docs, Sheet, Form
3. Microsoft Power Bi

CODING

1. GitHub Workflow
2. Visual Studio Code
3. HTML language
4. JavaScript

ADOBE SUITE

1. Adobe Illustrator
2. Adobe Premier Pro

Ms. Carmen Liaw +60 10 371 0057	Chemist II, Production
Ms. Shasikaala +60 13 778 0725	Executive II, Production

PROFESSIONAL EXPERIENCE

Top Glove Sdn Bhd, Factory 23, Ipoh, Perak (2 years 6 months; from 2nd November 2020)

Joined largest glove manufacturer in the world, as *Engineer position in Production department*, specializing in manufacturing, supply and distribution of polymer powder-free textured gloves.

An Engineer

1. Reported to Manufacturing Managers in executing engineering improvement projects.
2. Troubleshoot on Industrial Automation devices, not limited to wiring temperature controller (Omron E5CC and 3-wire thermocouple Type-K), NPN PNP sensors, 5/2 pneumatic solenoid valves.
3. Initiated Programmable Logic Board (PLC) projects with hands-on AC and DC wiring (MCB, RCCB, AC converter, main PLC) including terminal box design and I/O wire laying.
4. Self-learning PLC Programming Language (Ladder Diagram), mainly with Keyence PLC, with good understanding of Coils and Input, plus add-ons modules: Analog to Digital Conversion, Serial Comm RS232 RS485 and Ethernet IP Comm.
5. Designed Human Machine Interface UI with Delta DOP107CV, to work with PLC projects, ex: improvement of Polymer Timer Mini Pump Project by eliminating physical timer and relay components.
6. Converted production board to smart-board TV accessible from anywhere by self-written HTML and CSS language with Google Sheet Embedded, with paper usage eliminated and respective declaration using Google Form.

A Manufacturing Line PIC

1. Maximized output of production line to achieve target output KPI setting, by reducing scrap percentage from 2.29% (Nov 20) to 0.90% (Apr 23).
2. Carried out adhoc troubleshooting with supervisors and leaders on glove and defects on-site to ensure good quality products.
3. Conducted production whiteboard planning with major department (i.e. Compounding, Packing) weekly on Monday or on adhoc discussion urgent matters.
4. Worked with Former department to maintain ceramic formers (glove dipping rice bowl) at 99.0% cleanliness.
5. Focused Total Preventative Maintenance (TPM) with Maintenance department to improve and achieve 93.0% uptime production line (Dec 2022).
6. Controlled manufacturing cost by carton (CPC) by boosting output while focused in reducing consumption of raw material (Latex), cleaning reagent and natural gas.
7. Performed and lead mass scale trial run at production line with Research & Development (R&D) team.
8. On-call during night, weekend and Public Holiday for production line breakdown and arrangement, reported to managers.

A Production Staff

1. Ensured quality product output to meet AQL and International Standards: ASTM D3578 Standard Specification for Rubber Examination Gloves, EN455 European Standard for Medical Gloves.
2. Maintained compliance of production department to meet ISO 9001, ISO 13485, ISO 14001.
3. Complied with ISO 45001 Occupational Health and Safety Management System, including renewing Hazard & Operability (HAZOP) study for production chemicals and equipment, reporting Unsafe Act Unsafe Condition (UAUC) to Safety Department.
4. Good exposure to Emergency Response and First Aid Training, played a part of Factory Emergency Response Team.
5. Key person for departmental in Factory Customer Audit (Plant audit, On-site Inspection), Quality Audit (SIRIM, ISO) and Social Compliance Audit (BSCI, BSC) for documentation preparation and plant tour.
6. Worked as people manager to maintain workers' welfare, such as attendance, OT arrangement during Public Holiday.
7. Quality analysis and improvement using FMEA, 8D, Fishbone (Ishikawa), Five Whys, Poka Yoke, maintaining 5S principle at workstation.
8. Assisted in Operational Qualification (OQ) and Performance Qualification (PQ) validation of production line yearly.
9. Prepared CAPAR report and carried out corrective action, improved customer satisfaction by reduced customer complaints from 39 complaints (2019) to 13 complaints (2022).
